

LIFETIME ENHANCEMENT AGREEMENT

Enhancement of laser vision correction performed at Pacific Cataract and Laser Institute is considered if uncorrected visual acuity is 20/30 or worse due to residual refractive error. If our doctors determine that enhancement surgery is an option, this treatment will be provided free of charge for your lifetime as long as:

- You have received follow-up examinations at these approximate intervals after surgery:
 - 1 day
 - 1 week
 - 1 month
 - 3-6 months (for PRK only)
- Your eye doctor has shared post-operative findings with us from:
 - Your 1 month exam – if you had LASIK
 - Your 3-6 month exam – if you had PRK
- You receive yearly eye exams.

AGREEMENT ACCEPTANCE

I have read the above agreement and understand that free lifetime enhancement of my laser vision correction surgery will be available if the above requirements are met. Although enhancement surgery is free of charge, I understand that I will need to pay for follow-up care.
